Business Training Series Taxes and Bookkeeping 102

Bookkeeping Best Practice

Business owners, it's our responsibility to pay employees, purchase products, take credit card and cash payments, pay rent and insurance, and somehow keep this all together so you can pay the proper taxes and keep track of whether you're doing OK or not.

- What is the best method to do this?
- Do you need a computer?
- What are the dangers or problems that can arise if you do things wrong?
- How can you profit from this and make your business stronger?

In our Business Finance Seminar, Part 2, we'll show you the best ways to take care of this and much more.

Hosted by Victor Martinez of Martinez Income Tax and Accounting

When: September 26, 2017

Where: Valley Family Center
Conference Room
302 S. Brand Blvd.
San Fernando, CA 91340

Time: 8:30am to 10:30am

Light refreshments and coffee will be served.

Please bring a notebook and pen.
